

# Deliver your Message

---

Join us for this 2-hour workshop to increase your superpowers in communication. And it's definitely a superpower to get the attention back to your message - with all the distractions in our world. Whether you want your ideas to be heard in meetings, motivate others to take action or make your next presentation zing, this workshop is for you.

Participants will learn how to:

- get messages across with a 3-7 step approach (You decide how many steps!)
- listen for comprehension
- address situations when you may lose your audience
- shorten prep time for presentations
- get action from your audience

We will

- examine the dynamics associated with communicating to various audiences
- review methods to share effective messages and increase your influence
- have fun while learning as it is Friday afternoon!

All AIChE Conference participants are welcome to attend. Send any questions to Carissa Giblin at [Voyager Leadership Training](#).
