Engineers Week is Here!

National Engineers Week is February 20-26, 2011

Engineers Make a World of Difference!!

Engineers week is a week each year set aside to celebrate the contributions the engineers make in the world. Since 1951, more than 70 organizations across the nation take the time to gather and recognize the continuing need for engineers and engineering education. The time is taken to volunteer and education the community about the importance of learning science, math and other technical skills.

The Central Florida Section of AIChE celebrates each year by joining other sister organizations. This year you can attend at discounted rates just for going with AIChE! See inside this newsletter for details.

We look forward to seeing you!
